📁 Projects

Time Flies, Ruby on Rails ✍

- It's a fun project that I created with two other Le Wagon alumni. (clone of Airbnb)
- People can either rent a time machine or list their own time machine for others to rent
- We work as a team using Git and GitHub, and we were responsible for both the frontend and the backend development. We built this project with in a week.

Reach the flag, Javascript with P5JS library ✍

- Reach the Flag is a game that I created using JavaScript and the p5.js library.
- The player must reach the flag while dodging all the arrows and their own clones.

Keybinder, Lua Scripting ✍

- A mini fun project where I built a keybinder for GTA San Andreas' online community.

Playpal, Ruby on Rails ✍

- Playpal is a web application project designed to help new residents in the country find a team to play a sports game or help teams find missing teammates based on their skill level.
- The app was created within 2 weeks.

Authenticated Todos, React, Redux and Ruby on Rails API ✍

- A todo list which helps you keep track of your pending tasks.
- It uses JSON Web Tokens for Authentication.

I am a Full Stack Web Developer. I have always excelled with computers, starting from high school in my home country. My passion for technology led me to recently complete an intensive coding bootcamp at Le Wagon.

🎓 Education

Le Wagon Web Development Bootcamp

Lisbon, Portugal

Intensive full-stack web development program that covers a wide range of modern web technologies and best practices.

Front End Engineer, Codecademy

Gained in-depth knowledge in front-end development, covering:

- Testing methodologies
- SEO practices
- Security best practices

🧠 Skills

Hard Skills:

Front-End

HTML - CSS - SCSS - Tailwind CSS - Bootstrap - JavaScript - TypeScript - React - Redux - Stimulus

Back-End

Ruby on Rails - Ruby on Rails API - Active Record - MySQL (or PostgreSQL) - JWT

Development Tools

Git - GitHub - Heroku

Soft Skills:

- **Adaptable Learner:** I rapidly acquire new technologies, as shown by my post-bootcamp experience with libraries like React and Redux for project needs.
- **Team Player:** Collaborated effectively with my Le Wagon team on project creation.
- **Problem Solver:** I thrive on challenges and learn new frameworks, overcoming obstacles in Le Wagon projects.
- **Effective Communicator:** I effectively convey product requirements in team projects while promoting harmony and consideration.
- **Time Management:** Ensured timely completion of projects at Le Wagon, successfully building products within tight deadlines.

👜 Professional Experience

Receptionist, Be Lisbon

2023 – 2024 | Lisbon, Portugal

- Managed front desk operations, including guest check-ins, check-outs, and reservations.
- Addressed inquiries and provided support to asylum seekers.
- Coordinated with housekeeping and maintenance teams to ensure smooth operations.
- Processed payments and maintained accurate records.
- Resolved guest issues promptly and implemented systems to enhance operational efficiency.
